

22 February 2024

Avery School District #394
PO Box 7
Avery, Idaho 83802

To Whom It May Concern:

It is of utmost importance to the Avery, Calder, Clarkia School District to keep our staff and students safe. It is a priority of ours to create a safe educational environment with thorough safety procedures in place that will best protect the people on our campus.

To accomplish this, the District needs your help. I am organizing a Safety Team composed of representatives of each of the following groups: students, teachers, school board trustees, parents, community members, and emergency personnel. Together we can determine the best procedures for keeping everyone safe. If you are interested in supporting your local school district and serving on this committee, please contact me.

My vision for the Safety Team is that it will meet to discuss the current state of student and staff safety, the current procedures in place, and recommendations for future planning and training to enhance safety in our district. Ultimately, the Safety Team will develop a comprehensive safety plan that includes school safety measures, emergency response procedures, and reunification plans using district, community, and county personnel and resources.

Megan Sindt

Superintendent
